

# CUMULATIVE SUBJECT INDEX

VOLUME 15

\* indicates original article

## ACTH

- psychological responses to ACTH, cortisone, and related steroid substances, a review, 329

### reactions to:

- psychotic reactions induced by corticotropin (ACTH) and cortisone, 40

## ADOLESCENCE

- recognizing emotional problems in adolescent girls, 41

## ADRENAL GLANDS

### cortex:

- studies in responsivity of the adrenal cortex in schizophrenia, 39

## AGING—*See also Old Age.*

- effect of aging on cerebral circulation and metabolism, 58
- studies on the process of aging, 44

## ALCOHOLISM

- alcohol factor in violent deaths, 153
- neurologic complications of chronic alcoholism, 37

### treatment:

- investigation on the disulfiram-alcohol reaction, clinical observations, 151
- present-day medical management of alcoholism, 152

## ALLERGY

- concept of emotional allergy, 336

## AMAUROTIC FAMILY IDIOCY

- cerebral lipids in disseminated sclerosis and in amaurotic family idiocy, 166

## AMINO ACIDS

- significance of amino-acids in neuro-psychiatric diseases, 328

## AMOBARBITAL

- effect of amobarbital (Amytal) on conceptual thinking in schizophrenia, depression, and neurosis, 338

## AMYTAL—*See Amobarbital.*

## ANEMIA

### pernicious:

- electroencephalogram in pernicious anemia and subacute combined degeneration of the cord, 355

- observations on the differential diagnosis of multiple sclerosis and pernicious anemia, with special consideration of the early stages, 350

## ANOXEMIA

- anoxemia and brain disease, 57

## ANSOTOMY

- ansotomy in paralysis agitans, 448

## ANXIETY

- anxiety and depressive states treated with isonicotinic hydrazide (isoniazid), 51
- anxiety states in general practice, 47

- description and treatment of heart disease due to anxiety, 423

- recognition and treatment of anxiety states, 332

## APHASIA

- clinical observations on aphasia, 350

## ARTERIES

### occlusion:

- arterial occlusion simulating neurological disorders of the lower limbs, 436

## ATAXIA

- hereditary ataxia, 54

## BAL

- BAL in the treatment of neurological syndromes, 448

## BARBITURATES

### toxicity:

- effects of chronic barbiturate intoxication on motivation and muscular coordination, 37
- use of correctives in the prevention of barbiturate intoxication, 151

## BLOOD

### chemistry—*See also Glutamic Acid.*

- liver function and other blood chemistry tests in multiple sclerosis, 354

### counts:

- changes in the blood during emotion, 47

## BLOOD PRESSURE

### high—*See Hypertension.*

## BOOK REVIEWS

- Administrative medicine, 177
- African mind in health and disease, 174
- Aphasia therapeutics, 450
- Connections of the frontal cortex of the monkey, 449
- Fifty years of medicine, 360
- Functional neuroanatomy, 71
- Fundamentals in neuropathology, 362
- Gestalt therapy—excitement and growth in the human personality, 177
- Headache (Der Kopfschmerz), 70
- Heredity in health and mental disease, 68
- Interpersonal theory of psychiatry, 69
- Living with a disability, 176
- Man above humanity, a history of psychotherapy, 359
- Music therapy, 174
- Normal cerebral angiogram, 69
- Psychiatric aide; his part in patient care, 361
- Psychiatrist (The): his training and development, 175
- Psychology and psychotherapy of Otto Rank, 70
- Sexual offender and his offenses, 360
- Syphilitic optic atrophy, 361
- Understanding the Japanese mind, 173

## BRAIN

- effect of aging on cerebral circulation and metabolism, 58
- lesions of the human brain following circulatory arrest, 443

### diseases:

- anoxemia and brain disease, 57
- diagnoses of brain diseases by psychological methods, 425

*hemorrhage*—See also *Hemorrhage, subarachnoid*.

- contribution to the pathogenesis of brain damage following cerebral hemorrhage, 170

- surgical treatment of the cerebrovascular accident, 445

### injuries:

- brain injury and extrapyramidal diseases, 65
- experimental cerebral concussion, 56
- functional and structural bases for psychic phenomena consequent to cerebral concussion, 441

## CANCER

- psychological implications of cancer, 340

## CARBON DIOXIDE

- carbon dioxide inhalation therapy, 53
- carbon dioxide treatment, a review, 235\*
- critical evaluation of carbon dioxide oxygen inhalation therapy, 53

## CARDIAC ARREST

- major neuropsychiatric responses following resuscitation from cardiac arrest, preliminary observations and report of three cases, 335

## CAROTID ARTERY

- electroencephalographic changes resulting from carotid artery compression, 439

## CEREBRAL PALSY

- organization of a training program for the cerebral palsied in an institution for mental deficiency, 422

## CEREBROSPINAL FLUID

- cerebrospinal fluid pressure, 58

## CERLETTI, UGO

- biographical note, 317

## CHARCOT-MARIE-TOOTH DISEASE

- progressive neuropathic (peroneal) muscular atrophy (Charcot-Marie-Tooth disease), 62

## CHILDREN

- cases of hysteria in childhood, 157
- dangers of codeine overdosage in children, 45

- disturbances of sensation in children with hemiplegia, 436

### intelligence tests:

- contribution to a dynamic theory of intelligence testing of children, 73\*
- treatment of migraine in children, 172

## CHLORAMPHENICOL

- intrathecal injection and cortical application of chloramphenicol, an experimental study with a review of the local action of antibiotics on the central nervous system, 447

## CHLORPROMAZINE

- chlorpromazine, new inhibiting agent for psychomotor excitement and manic states, 347

- chlorpromazine in the treatment of neuro-psychiatric disorders, 426

## CIRCULATORY ARREST

- lesions of the human brain following circulatory arrest, 443

## CODEINE

### toxicity:

- dangers of codeine overdosage in children, 45

## COMBAT FATIGUE

- “combat fatigue” or death anxiety neurosis, 41

## CONCEPTUAL THINKING

- effect of amobarbital (Amytal) on conceptual thinking in schizophrenia, depression, and neurosis, 338

*CONCUSSION*—See *Brain, injuries*.

## CONDITIONED REFLEX

- conditioned reflex in the chronic schizophrenic, 346

## CONSTITUTION

- importance of constitution in psychiatry, 44

## CONVULSIONS

- incidence of idiopathic convulsions in later life, 353

## CONVULSIVE TREATMENT

- convulsive treatment, a reappraisal, 219\*

## CORN AMMONIS

- clinical significance of sclerosis of the cornu ammonis, 66

*CORTICOTROPIN*—See *ACTH*.

## CORTISONE

- multiple symmetrical polyneuropathy treated with cortisone, 68
- psychological responses to ACTH, cortisone, and related steroid substances, a review, 329

### reactions to:

- psychotic reactions induced by corticotropin (ACTH) and cortisone, 40

## COUNTERTRANSFERENCE

- countertransference, its influence on a patient's mental awareness, 323\*

## CREEDMOOR INSTITUTE

- psychiatric research perspectives at the Creedmoor Institute for Psychobiological Studies, 1953, 119\*

## DEATHS

### violent:

- alcohol factor in violent deaths, 153

## DELUSIONS

- delusion of parasitosis, report of successful care with antipellagrous treatment, 337
- delusional reduplication of parts of the body, 417
- notes on the psychopathology of delusions, 160

## DEMENCIA PRAECOX

- cerebral ventricles in dementia praecox, 338

## DEPERSONALIZATION

- depression, hypomania, and depersonalization, 345

## DEPRESSION

- anxiety and depressive states treated with isonicotinic hydrazide (isoniazid), 51
- depression, hypomania, and depersonalization, 345
- depression in psychosomatic disorders, 423

## DISPLACED PERSONS

- mental illness among displaced persons, 155

## DISSEMINATED SCLEROSIS

- cerebral lipids in disseminated sclerosis and in amaurotic family idiocy, 166

## DISULFIRAM

- investigation on the disulfiram-alcohol reaction, clinical observations, 151

## DRUGS

- effect of drugs on group therapy, an experiment, 349

## ELECTRIC STIMULATION

- unipolar electrocerebral stimulation, a new method in the treatment of psychiatric disorders, 434

## ELECTROENCEPHALOGRAPHY

- clinical evaluation of metrazol activation in electroencephalography, 357
- electroencephalogram in manic-depressive psychosis, 356
- electroencephalogram in paralysis agitans, 356
- electroencephalogram in pernicious anemia and subacute combined degeneration of the cord, 355
- electroencephalographic changes resulting from carotid artery compression, 439
- electroencephalographic findings in the hypnotized, 169
- electroencephalographic findings in mentally retarded children, 169
- management of psychiatric patients with abnormal encephalograms, 61
- metabolic and electroencephalographic changes in idiopathic epilepsy, 440
- metrazol activation as a diagnostic adjunct in electroencephalography, a re-evaluation, 439
- note on the reliability of electroencephalographic judgments, 169
- ventricular displacement and electroencephalographic focus in multiple sclerosis, 64

## ELECTROSHOCK

- anxiety after electroshock therapy in involutional melancholia, 52, 454
- electric shock treatment and the menstrual cycle, 433
- electroshock therapy, 191\*
- factor of hypoxemia in electroshock therapy, 52
- value of electric-shock treatment on outpatients, 435

## EMOTIONS

- changes in the blood during emotions, 47
- concept of emotional allergy, 336
- recognizing emotional problems in adolescent girls, 41

## EOSINOPHILIA

- three-year follow-up of patients developing eosinophilia during insulin coma therapy, 331

## EPILEPSY

- metabolic and encephalographic changes in idiopathic epilepsy, 440

### treatment:

- experiences with RO-2-3059 as an anti-convulsant, 359
- results of intensive (narcosis) and standard medical treatment of epilepsy, 99

## EXTRAPYRAMIDAL DISEASE

- brain injury and extrapyramidal diseases, 65

## EYES

### movements:

- spontaneous rhythmic ocular movements, their possible relationship to mental activity, 352

## FRONTAL BONE

- frontal bone hyperostosis in psychoses, 67

## GASTROINTESTINAL DISEASES

- life stress and gastro-intestinal diseases, 158

## GERIATRICS—See *Aging; Old Age.*

## GLUTAMIC ACID

- plasma glutamic acid levels in health and disease, a report on hospitalized schizophrenics, 26\*
- plasma glutamic acid levels in health and disease, report on normal controls, 19\*

### therapeutic use:

- effect of L (+) glutamic acid on mental growth, 329
- study of the effect of glutamic acid on delinquent adult male mental defectives, 51

## GOVERNORS' CONFERENCE

- recommendations of the Governors' Conference, 135\*

## GROUP THERAPY

- effect of drugs on group therapy, an experiment, 349
- factors in group motivation in a mental hospital, 49
- group psychotherapy in the institution, 433
- twenty years of group psychotherapy, purposes, methods, and mechanisms, 429

## HALLORAN, ROY D. (Col. U.S.A.)

- memorial tribute to Col. Roy D. Halloran, Editorial, 35\*

## HEART—See *Cardiac Arrest.*

## HEART DISEASE

- description and treatment of heart disease due to anxiety, 423

## HEMIANOPSIA

### *homonymous:*

- homonymous hemianopsia in multiple sclerosis, 438

## HEMIPLEGIA

- disturbances of sensation in children with hemiplegia, 436

## HEMORRHAGE

### *subarachnoid:*

- Korsakov syndrome in spontaneous subarachnoid hemorrhage, 55
- subarachnoid hemorrhage of unusual etiology, 54

## HEMATOMA

### *subdural:*

- ipsilateral third cranial nerve palsy as a presenting sign in acute subdural hematoma, 55

## HIP

### *fracture:*

- fractures of the hip in elderly psychiatric patients, 43

## HORMONES

- hormone therapy, 363\*

## HOSKINS, ROY G.

- biographical note, 380

## HOSPITALS

### *general:*

- in-patient care of general hospital psychiatric patients, 45

### *psychiatric:*

- factors in group motivation in a mental hospital, 49
- psychiatric rehabilitation in the hospital, 161

## HYPERTENSION

- intellectual and affective changes in essential hypertension, 423

## HYPNOSIS

- electroencephalographic findings in the hypnotized, 169

## HYPOCHONDRIA

- on the "anatomy" of hypochondriac conditions, 344

## HYPOMANIA

- depression, hypomania, and depersonalization, 345

## HYSTERIA

- cases of hysteria in childhood, 157

### *conversion:*

- re-examination of some aspects of conversion hysteria, 342

## INSULIN COMA

- observations on organic brain damage and clinical improvement following protracted insulin coma, 428
- problem of activated psychosis in the insulin therapy of schizophrenics, 427
- three-year follow-up of patients developing eosinophilia during insulin coma therapy, 331
- treatment for prolonged insulin coma, report of four cases, 9\*

## INTELLIGENCE TESTS

- contribution to a dynamic theory of intelligence testing of children, 73\*
- how constant is the I.Q.? 159

## INTERVIEWS

### *psychiatric:*

- the initial interview, 336

## I.Q.—See *Intelligence Tests*.

## ISONIAZID

- anxiety and depressive states treated with isonicotinyl hydrazide (isoniazid), 51
- isoniazid in treatment of the chronic schizophrenic patient, 162
- isoniazid treatment of psychiatric patients, 429

## ISONICOTINYL HYDRAZIDE—See *Isoniazid*.

## KORSAKOV SYNDROME

- Korsakov syndrome in spontaneous subarachnoid hemorrhage, 55

## LEUKOTOMY

### *prefrontal:*

- how I succeeded in performing prefrontal leukotomy, 373\*

## LIPIDS

- cerebral lipids in disseminated sclerosis and in amaurotic family idiocy, 166

## LIVER

### *function:*

- liver function and other blood chemistry tests in multiple sclerosis, 354

## LOBOTOMY

### *prefrontal:*

- long term evaluation of prefrontal lobotomy in chronic psychotics, 418
- work adjustment five to ten years after bilateral prefrontal lobotomy, 418

## MANIC-DEPRESSIVE PSYCHOSIS

- chlorpromazine, new inhibiting agent for psychomotor excitement and manic states, 347
- electroencephalogram in manic-depressive psychosis, 356

## MEDICAL JURISPRUDENCE

- medical expert testimony and its improvement, 328

## MEDUNA, JOSEPH L.

- biographical note, 318

## MELANCHOLIA

- anxiety after electroshock therapy in involutional melancholia, 52, 434

## MENSTRUATION

- electric shock treatment and the menstrual cycle, 433
- psychiatric aspects of the menstrual cycle, 96\*

## MENTAL DEFICIENCY

- study of the effect of glutamic acid on delinquent adult male mental defectives, 51

## MENTAL HEALTH

- why and how of a prevention program in mental health, 405\*

## MENTAL HOSPITALS—See *Hospitals, psychiatric*.

## MENTAL RETARDATION

- effect of L (+) glutamic acid on mental growth, 329
- electroencephalographic findings in mentally retarded children, 169

## MESTINON BROMIDE

- studies on myasthenia gravis, preliminary report on therapy with Mestinon bromide, 444

## METRAZOL

- clinical evaluation of metrazol activation in electroencephalography, 357
- metrazol activation as a diagnostic adjunct in electroencephalography, a re-evaluation, 439
- subconvulsive intravenous metrazol therapy in mental patients, 429

## MIGRAINE

- treatment of migraine in children, 172

## MONIZ, EGAS

- biographical note, 381

## MULTIPLE SCLEROSIS

- homonymous hemianopsia in multiple sclerosis, 438
- is multiple sclerosis a manifestation of idioblastic allergy? 354
- liver function and other blood chemistry tests in multiple sclerosis, 354
- multiple sclerosis, its frequency and distribution, 60
- observations on the differential diagnosis of multiple sclerosis and pernicious anemia, with special consideration of the early stages, 350
- pathology of the blood vessels in multiple sclerosis, 442
- ventricular displacement and electroencephalographic focus in multiple sclerosis, 64

## MYASTHENIA GRAVIS

- medicinal treatment of myasthenia gravis, 358
- sex and age in myasthenia gravis as critical factors in incidence and remission, 166
- studies in myasthenia gravis, 61
- studies in myasthenia gravis, preliminary report on therapy with Mestinon bromide, 444

## MYELIN

- on myelin and the classification of nerve fibers, 437

## NERVE FIBERS

- on myelin and the classification of nerve fibers, 437

## NERVES

- cranial:*
  - ipsilateral third cranial nerve palsy as a presenting sign in acute subdural hematoma, 55

- peripheral:*

- electric methods in diagnosis and prognosis of peripheral nerve injuries and poliomyelitis, 63

## NEUROCIRCULATORY ASTHENIA

- psychiatric observations in neurocirculatory asthenia, 335

## NEUROPATHIES

- multiple symmetrical polyneuropathy treated with cortisone, 68

## NEUROPHYSIOLOGY

- recent advances in neurophysiology, 352

## NEUROPSYCHIATRIC DISORDERS

- major neuropsychiatric responses following resuscitation from cardiac arrest, preliminary observations and report of three cases, 335

- significance of amino-acids in neuropsychiatric diseases, 328

- compulsive:*

- on pathologic metabolic conditions in cases of compulsive neuroses, 332

- obsessional:*

- results of the Rorschach test given in obsessional neurotics, 340

- transition of obsession neuroses into schizophrenia in the light of the catamnesis, 344

## NEUROSES

- psychosomatic aspect of the neuroses, 158

- war:*

- “combat fatigue” or death anxiety neurosis, 41

## NEUROSYPHILIS

- blood and spinal fluid tests for reagin after treatment of neurosyphilis, 171

## ODONTOID PROCESS

- congenital absence of the odontoid process, 62

## OLD AGE—See also Aging.

- community conditions and psychoses of the elderly, 419

- fractures of the hip in elderly psychiatric patients, 43

- geriatric ward patients, 156

- individualizing the care of the aging, 157

- treatment of elderly psychiatric patients, use of a diagnostic classification, 347

## ORGANICISM

- philosophy of organicism in psychiatry, 179\*

## OUTPATIENTS

- value of electric-shock treatment on outpatients, 435

## OVERHOLSER, WINFRED

- Distinguished Service Award, Gold Medal, to, 130\*

## PAIN

- varying response to pain in psychiatric disorders, a study in abnormal psychology, 340

## PARALYSIS AGITANS

- anatomy in paralysis agitans, 448

- electroencephalogram in paralysis agitans, 356

## PARAPLEGIA

- amyotrophic familial spastic paraplegia, 167

- paraplegia in flexion of cerebral origin, 163

## PARASITOSIS

- delusion of parasitosis, report of successful care with antipellagrous treatment, 337

## PELLAGRA

- delusion of parasitosis, report of successful care with antipellagrous treatment, 337

## PHYSIODYNAMIC THERAPY

- contemporary physiodynamic therapeutic trends in psychiatry, 382\*

## POLIOMYELITIS

- electric methods in diagnosis and treatment of peripheral nerve injuries and poliomyelitis, 63

### nonparalytic:

- follow-up study in seventy-five cases of nonparalytic poliomyelitis, 65

## PROJECTION TEST

- use of sounds in a projective test, 159

## PSYCHIATRY

- conflicts between psychiatry and religion, 416

- contemporary physiodynamic therapeutic trends in psychiatry, 382\*

### legal aspects—See *Medical Jurisprudence, military:*

- suicidal incidents in military personnel, 42

### research:

- psychiatric research perspectives at the Creedmoor Institute for Psychobiologic Studies, 1953, 119\*

- training and research, present status, background, and suggested plans for the future, 141\*

- trends and progress in French psychiatry, 1\*

## PSYCHOLOGISTS

- clinical psychologist as a humane scientist, 424

## PSYCHOLOGY

- tests—See also under names of specific tests.

- diagnosis of brain diseases by psychologic methods, 425

## PSYCHOSES

- community conditions and psychoses of the elderly, 419

- frontal bone hyperostosis in psychoses, 67

### hospital treatment:

- in-patient care of general hospital psychiatric patients, 45

- mental illness among displaced persons, 155

- psychotic reactions induced by corticotropin (ACTH) and cortisone, 40

### treatment—See also *Rehabilitation.*

- management of psychiatric patients with abnormal electroencephalograms, 61

- theory of the "total push" program in psychiatry, 431

- treatment of elderly psychiatric patients, use of a diagnostic classification, 347

- varying responses to pain in psychiatric disorders, a study in abnormal psychology, 340

## PSYCHOSOMATIC MEDICINE

- depression in psychosomatic disorders, 423

- emotional significance of severe trauma, 413

- life stress and gastro-intestinal diseases, 158

- psychiatric aspects of the menstrual cycle, 96\*

- psychologic implications of cancer, 340

- psychosomatic aspect of the neuroses, 158

- somatopsychic medicine, 339

- treatment of psychosomatic disorders by the internist, 339

## PYRAMIDAL SIGNS

- pyramidal signs, 351

## RADIOISOTOPES

- radioisotopes in neurology, 165

## REDUPLICATION

- delusional reduplication of parts of the body, 417

## REHABILITATION

- plan for rehabilitating improved psychotic patients, 48

- psychiatric rehabilitation in the hospital, 161

- psychiatric sheltered workshop in the rehabilitation of the mentally ill, 426

## RELIGION

- conflicts between psychiatry and religion, 416

## RO-2-3059

- experiences with RO-2-3059 as an anti-convulsant, 359

## RORSCHACH METHOD

- longitudinal approach to schizophrenia through the Rorschach method, 107\*

## RORSCHACH TEST

- results of the Rorschach test given in obsessional neurotics, 340

## SAKEL, MANFRED J.

- biographical note, 319

## SCHIZOPHRENIA—See also *Dementia Praecox.*

- conditioned reflex in the chronic schizophrenic, 346

- creative functions in the beginning of schizophrenic psychoses, 343

- eosinophile response in schizophrenic patients, 154

- histopathological changes in the brain in schizophrenia, a critical review, 442

- longitudinal approach to schizophrenia through the Rorschach method, 107\*

- plasma glutamic acid levels in health and disease, a report on hospitalized schizophrenics, 26\*

- problem of schizophrenia from the point of view of welfare medicine, 337

- schizophrenia, a new approach, result of a year's research, 330

- some antecedent factors in the family histories of 392 schizophrenics, 420

- studies in the responsivity of the adrenal cortex in schizophrenia, 39

- transition of obsession neuroses into schizophrenia in the light of the catamnesis, 344

### treatment:

- isoniazid in treatment of the chronic schizophrenic patient, 162

- problem of activated psychosis in the insulin therapy of schizophrenics, 427

- psychotherapy of schizophrenia and borderline cases, 342

- results of psychiatric treatments with a control series, a 25-year study, 155
- SHOCK THERAPY**—*See also Convulsive Treatments; Electroshock.*
  - classical Sakel shock treatment, a re-appraisal, 255\*
- SOUND**
  - use of sounds in a projective test, 159
- SPINAL CORD**
  - subacute combined degeneration:*
    - electroencephalogram in pernicious anemia and subacute combined degeneration of the cord, 355
- STELLATE GANGLION BLOCK**
  - is stellate ganglion block of value in stroke? 172
- STEROIDS**
  - psychological responses to ACTH, cortisone, and related steroid substances, a review, 329
- STRESS**
  - life stress and gastro-intestinal diseases, 158
- STROKE**
  - is stellate ganglion block of value in stroke? 172
- SUICIDE**
  - evaluation of suicide attempts as a guide to therapy, clinical and follow-up study of one hundred nine patients, 414
- SYPHILIS**—*See Neurosyphilis.*
- SYRINGOMYELIA**
  - syringomyelia, a clinopathologic study, 167
- TEMPORAL LOBE**
  - further analysis of the temporal lobe syndrome utilizing frontotemporal ablations, 353
- TIC DOULOUREUX**
  - nature of tic douloureux, treatment by alcohol block or section of the great auricular nerve, 67
- TRAUMA**
  - emotional significance of severe trauma, 413
- TRIGEMINAL NEURALGIA**
  - trigeminal neuralgia, pathology and treatment, 446
- VENTRICLES**
  - cerebral:*
    - cerebral ventricles in dementia praecox, 338
- WAR MEDICINE**—*See Neuroses, war.*
- WORKSHOPS**
  - psychiatric sheltered workshop in the rehabilitation of the mentally ill, 426
